Lighting "The Birth of a Nation" at the New Nixon in Atlantic City has been "crowding 'em in," the management has at great cost installed new motors and dynamos to increase the volume of light. The new apparatus is the latest improved type manufactured in the Fort Wayne Electric Works of the General Electric Company. The factory had been working day and night to have the machines ready for last Monday night, and the express company held a special car in readiness to transport them.

The lighting expert of the Epoch Producing Company, Cecil R. Wood, came on from New York, and with an expert corps of trained men made the change of apparatus in the short time of three Lighting "The Birth of a Nation"

Peak, of Galveston, Tex., and granddaughter of Mr. and Mrs. Samuel Cassel, of 21c3 North Camac street, became the bride of Mr. George W. C. Weissgerber, of 1523 West Venango street, The ceremony was performed at the new home of the bridegroom and bride, 4815 North Camac street, by the Rev. The marriage of Miss Hetty Abrams and Mr. Morris Rothman took place on Sunday, August 1. The ceremony was performed by Rabbi Griven at half-past 7, and was followed by a reception at the home of the bridegroom's mother, 2548 North 33d street. The bride, who was attended by Miss Laura Rothman as maid of homor, were a gown of white satin and of honor, wore a gown of white satin and a veil of tulle held in place by lilies-ofthe-valley. from New York, and with all expericorps of trained men made the change of
apparatus in the short time of three
hours. In three minutes after they had
finished the evening performance began.
To give an ideal projection to this
wonderful work of education and art to
the abdisnoes in Atlantic City, making
it fully on a par with that of New York.
Chicago and Boston, has entailed a cost
of over 1100 to the management.
"The Hirth of a Nation" is now the
brightest picture in Atlantic City, and
to realize what was necessary to obtain
the dazzling whiteness and vivid detail
it is only needful to state that the new
apparatus develops and uses 28,000 candis power and uses electricity at the rate
of 50 a day.

With a symphony orchestra of 61 and
with the large force of electrical exparts, operators, effect men and others,
it can readily be seen that the cost of
surper dramatic companies.
